About This Game

❓Intro❓

A game about romancing monks?! All the romanceable characters are monks?!
Sweet yet seductive! The untainted body and soul that only you can touch...
PS: The game is set in an alternate history with an alternate religion.

❓Hair Switch❓

If it doesn't suit your taste then shave their hair off! There's actually a unique option to control the male characters' hair at will!

❓"Awful" Characters❓

Completely fixated on training yet a lover of all things fuzzy denpa Zhikong, the outwardly charming yet inwardly shy frugal

housewife Huihai, the martial artist clean freak and tsundere ponytail Ziqing, there's surely someone who will interest you.
No one is normal?!

Performance

Lively visual performance, some CGs are even partially animated!

Lost in Secular Love that was initially released on 2014 is now finally on Steam! The ban against livestreaming and/or recording gameplay has also been lifted! Anyone is welcome to record/livestream gameplay!

This is spoiler free!

So I have had this game since the English localisation was released. I just finished the last few accomplishments so I feel fully prepared to review :)

I was excited when the english localization became available.

I adore this game. Not only is the story engaging, the art and music are good too. Both the light and dark of the characters is thoughtfully revealed.

The sexual content is done well and all of them stay true to that particular story line.

I recommend to just sitting back and enjoying the ride on this one.. This is spoiler free!
